

Detailed Program IPI VII - Symposium

17 October Thursday, 2024

Time Slot	Main Hall	
8:30 - 8:50	<p style="text-align: center;">Opening Ceremony Dominic Hegarty, President of WIP Serdar Erdine, Chair of WIP Registered Turkish Section Gül Köknel Talu, President of Turkish Society of Algology İbrahim Aşık, Co Chair of Turkish Registered Section</p>	
08:50 - 09:50	Session I Moderators: Serdar Erdine, İbrahim Aşık	
	08:50 - 09:10	Past, Present and Future of Pain Medicine Miles Day
	09:10 - 09:30	Recent Advances in Interventional Treatment of Facial pain Dominic Hegarty
	09:30 - 09:50	Current status of Vagus Nerve Stimulation: indications and limits Peter Staats
09:50-10:20	Coffee Break	
10:20 - 12:20	Session II Moderators: Jan van Zundert, Christ de Clerck	
	10:20 - 10:40	Lumbar Facet Radiofrequency: Does the technique affect the outcome, Jan van Zundert
	10:40 - 11:00	Social Benefit of Interventions in Chronic Pain Arun Bashkar
	11:00 - 11:20	New onset chronic pain: Who should I see first IPM Or Surgery? Peter Staats
	11:20 - 11:40	USG in Interventional Pain Medicine Christ DeClerck
	11:40 - 12:00	Artificial intelligence in Pain Medicine Serdar Erdine
	12:00 - 12:20	Flouro vs USG Javier De Andres
12:20 - 13:00	<p style="text-align: center;">Boston Scientific - Satellite Symposium "International Expertise in RF" Moderator: Prof. Serdar Erdine "The best approaches and tools with trigeminal" Dr. Matis "A Go-to approach while treating patients with complex pain" Dr. Raath</p>	
13:00 -13:45	Lunch	
13:45 - 18:15	Parallel Session I : Cadaver Workshop	

18 October Friday, 2024

Time Slot	Main Hall	
8:30 - 10:30	Session III Moderators: Liong Liem, Pakize Kirdemir	
	08:30-08:50	Anatomic landmarks for interventional pain procedures Osman Coşkun
	08:50 - 09:10	Education and Training in Pain Medicine: Past, Present and Future Monique Steegers
	09:10 - 09:30	Interventional Techniques for Cancer Pain Kris Viissers
	09:30 - 9:50	Neurolytic blocks in pain management, Liong Liem
	09:50 - 10:10	Basivertebral radiofrequency ablation in vertebrogenic pain Sudhir Diwan
	10:10 - 10:30	Pain Management in Palliative Care Meltem Uyar
10:30-11:00	Coffee Break	
11:00 - 12:40	Session IV Moderators: İbrahim Aşık, Adnan Al Kaisy	
	11:00 - 11:20	Optimal Imaging Guide for Spinal Interventions Milan Stojanovic
	11:20 - 11:40	New Concept: Osteogenic Pain Ricardo Plancarte
	11:40 - 12:00	Current concepts for DRG stimulation in chronic pain Kiran Patel
	12:00 - 12:20	DRG versus spinal cord stimulation.What is the current status? Adnan El Kaisy
	12:20 - 12:40	Mitigation of Complications of Neurostimulation İbrahim Aşık
12:40 -13:45	Lunch	
13:45 - 18:15	Parallel Session II : Cadaver Workshop	

19 October Saturday, 2024

Time Slot	Main Hall	
8:30 - 10:30	Session V Moderators: Fatih Özkan, Alp Yentür	
	08:30-08:50	Radiation Safety Okan Suzer
	08:50 - 09:10	Percutaneous Cordotomy Mert Akbaş
	09:10 - 09:30	Neuroplasty Gözde Dağıstan
	09:30 - 9:50	Horizons and Limits for the use of USG in Pain Management Derya Güner
	09:50 - 10:10	High Voltage Pulse RFTC Burak Erken
	10:10 - 10:30	Chronic pelvic pain Gül Köknel Talu
10:30-11:00	Coffee Break	
11:00 - 13:00	Session VI Moderators: Christopher Gilligan, Ersin Tan	
	11:00 - 11:20	5-year Outcomes for Restorative Neurostimulation for Chronic Low Back Pain Christopher Gilligan
	11:20 - 11:40	Regenerative Medicine for chronic spinal pain; what is the evidence? Shahzad Anwar
	11:40 - 12:00	Adhesiolysis by Low dextrose Injection through Four in one (ALIF) Technique for Frozen Shoulder Treatment : New Ultrasound Guided Technique Alif Rahman
	12:00 - 12:20	Cranial Neuralgias Ersin Tan
	12:20 - 12:40	Neuromodulation: 3rd generation SCS Sean Li
	12:40 - 13:00	Recent Advances in Fibromyalgia Ayşen Akıncı
13:00 -13:45	Lunch	
13:45 - 18:15	Parallel Session III : Cadaver Workshop	

20 October Sunday, 2024

Time Slot	Acıbadem University CASE
08:00-18:00	FIPP/CIPS Examination
